CENTRAL INTELLIGENCE AGENCY

OFFICE OF CENTRAL REFERENCE

STAT

28 May 1958

MEMORANDUM FOR:

[Redacted Box]

SUBJECT : Commendation

STAT

1. I want to thank each of you for your splendid performance as a member of the inter-office task team which reviewed Project MINICARD. I have noted that [Redacted Box] took over the chairmanship of your group after the untimely passing of our former colleague [Redacted Box]. Under his able guidance you turned in a report of which you can be proud.

STAT

2. Members of my staff, the OCR Library Consultants and I have studied your findings. I now have your recommendations under active consideration. We will not of course be able to carry out all recommendations made by each of the sixteen task teams. By its nature this type of exercise is almost bound to yield some recommendations which cannot be reconciled with others. Other restrictions will be imposed by limitations of personnel, space and money. It is our job now to come as close to the ideal as the above limitations permit.

3. Over-all the exercise in which you have just participated is unrivaled in the scope and depth of intelligence reference investigation. I commend you for your part in it and am requesting the Director of Personnel to place a copy of this memorandum in the file of each member of your team.
